

## SB24 SUNKEN PERMANENT

90MM DIA X 1500MM

The SB.24 fixed sunken bollard is manufactured from 90mm Mild Steel. Powder coated black with a white vinyl stripe. Perfect for protecting buildings, shutter doors, loading bays or anywhere similar. Its heavy-duty steel offers a great solution for creating demarcation around car parks, buildings and pedestrianised areas to reduce accidental or deliberate vehicle impact.

Available uncapped\* to give the option of filling with concrete for extra strength.

Also available surface mounted.

### Installation Recommendation

- Concrete In 500mm below ground
- Hole requires 400 x 400 x 540mm deep

*\*Uncapped options are made to order*
